

EXPERIENCE

QUESTION #1

LIFE RESOURCES OF GEORGIA, INC.
EXPERIENCE, QUESTIONS #1

LIFE RESOURCES OF GEORGIA, INC.

MANDATORY SCORED QUESTION

EXPERIENCE

- 1. Offeror must possess a minimum of 5 years of documented experience providing contract management services with a similar scope of services.**

Response:

Life Resources of Georgia Inc. (LRG) began in 2007 with the mission to advance the scope, effectiveness, and impact of pregnancy care organizations in Georgia. In the course of fulfilling this mission, we have acquired experience in the following areas:

1. Grant Management - LRG has established two grant programs for GA pregnancy care organizations. These programs involved the development, screening, awarding, and maintenance of grants related to ultrasound proficiency trainings and technology.
2. Quality Control – LRG has developed and implemented a program whereby centers must meet stringent qualifications and operational standards in order to receive the program's "seal of approval".
3. Networking – Almost ten years ago, LRG initiated the networking of over 65 pregnancy care organizations in GA and has maintained continuous communication through a statewide email distribution list, conferences, seminars and personal relationships.
4. Reporting – LRG has gathered statistical information from the GA centers annually since 2007.
